## CANADIAN MEDALS HANDBOOK WITH PRICES AND PICTURES

The "2004 SECOND EDITION CANADIAN MEDALS HANDBOOK WITH PRICES" by Jack Sauchenko, 13559 - 124 A Ave., Edmonton, Alberta, T5L 3B4, Ph. (780) 455-1566 e-mail < jpsbes@planet.eon.net > has been released at \$79.90 Canadian Funds plus postage and GST or HST in Canada and United States buyers please send e-mail as the Canadian dollar is varying its value.

At present value of Dollar cost of the Medals Handbook is \$59.95 U.S. Funds plus postage (Oct. 2003). This Handbook on Canadian Medals is one of a kind and one will probably wait a long time for a similar issue to be published I know, for the expense of producing this Handbook much out weighs the cost of the Handbook.

I have created a Table of Contents listing the Canadian Medals Handbook in sections with prices so a collector may buy any portion or all the Handbook.

This Handbook is designed for the record keeping collector, each entry has a space in front for the collector to record his inventory of the medal.

The Canadian Medals Handbook catalogues 13,581 Canadian Medals with pictures numerically listed following a section of 10 pages or so. The corresponding numbers are found in front of the described medal.

There are small Handbooks that include Space Medals, Automobile medals and Royalty medals pertaining to Canada with Pictures and prices listed in the Table of Contents.

The Canadian Metals Handbook has two sections 1st section from Alberta To Nova Scotia, 2nd section Ontario to Yukon each section sells for \$39.95 Canadian each plus postage and GST or HST or \$59.00 U.S. plus postage.

The Handbook is 481 pages printed on 8 1/2 X 11 inch white paper bound by a coil binding in two volumes. The medals are listed by dates and undated in alphabetical order under the municipality in which they were issued. Municipalities are listed under the province or Territory in which they are situated all in alphabetical order.

The following data is given for each listing (where known): the year of issue or no year but in alphabetical order, a short description of both sides for recognition, composition, weight, diameter, type of edge, mintage, mint and a valuation in Canadian Dollars and picture of both sides.
